
EnviroWestern

Hiring - Third Round

Project Team Executive

The Project Team Executives will be responsible for overseeing planning and execution of programming initiatives on campus with relevance to various environmental themes (i.e. water, waste, food, reusability). These executives will work closely with one another and volunteers from our general membership base to develop and carry out creative event ideas. Each Lead (i.e. Water Lead, Waste Lead, Food Lead, Reusability Lead) will take their turn steering the portfolio, depending on the type of event.

Advocacy Representative - Western Campus

The Western Campus Advocacy Representative will spearhead and enact environmental advocacy initiatives on campus, helping to bridge the divide between student ideas and concerns, and the administration. This member of the team will work closely with the other Advocacy Representatives to increase student awareness of and engagement in environmental issues at Western University.

Advocacy Representative - London, ON

The London Advocacy Representative will spearhead and enact environmental advocacy initiatives by and for students within London, helping to bridge the divide between student ideas and concerns, and the community. This member of the team will work closely with the other Advocacy Representatives to increase student awareness of and engagement in environmental issues in London, ON.

Advocacy Representative - Inter-University

The Inter-University Campus Advocacy Representative will spearhead and enact environmental advocacy initiatives on campus, helping to bridge the divide between student ideas and concerns, and the administration. This member of the team will work closely with the other Advocacy Representatives to increase student awareness of and engagement in environmental issues at Western University, and will also work closely with organizations similar to EnviroWestern at other universities in Ontario to share ideas and collaborate.
