ADVOCACY

LEAD

This position is for those who want to effect change in the Western community through work with the USC, Administration and other similar bodies.

Advocacy is a huge priority for PrideWestern. We are meant to listen to students and make the changes they want and need to feel supported and to make campus more safe and inclusive.

The advocacy lead role is for someone who is comfortable in their organization and communication skills and who is comfortable with arguing their point and standing their ground on important issues.

ADVOCACY

ASSOCIATE

This position is for those who want to effect change in the Western community through work with the USC, Administration and other similar bodies.

Specifically, this position is to help the advocacy lead with the legwork of their position. There are many meetings to attend and many students to listen to.

This position has a less organizational role and is more to focus any area such as communication, brainstorming, writing and/or networking.

The background features a collage of social media icons including YouTube, Facebook, and Twitter, partially obscured by large, overlapping triangles in teal, light blue, and peach colors. The word 'COMMUNICATION' is written in a large, bold, black, hand-drawn font across the center.

COMMUNICATION

We want to have regular posts for students to stay up to date. Different forms of media from written word to video may be used – there is lots of opportunity to be creative!

This position is for someone comfortable making graphics and coming up with relevant, educational and well-informed content for social media and other platforms.

OUTREACH

L E A D

This position is for those who enjoy listening to and speaking with students, and who are passionate about reaching others where they're at!

This year a core goal of PrideWestern is to be visible and knowable on campus. We want someone who is comfortable taking on a leadership role on campus.

This role is also more organizational and planning oriented than the associate position.

OUTREACH

ASSOCIATE

This position is geared towards someone who is interested in making connections with students, but may be less comfortable with the full responsibility of the lead position.

Most of this position is making friends and keeping in touch with other members of the community!

We have lots of students to chat with and to listen to - if you want to work on the skills involved in being that person, this position is for you!

RESEARCH

LEAD

This position is to organize, distribute and begin analysis of a campus-wide survey about student experience as it pertains to the PrideWestern portfolio.

The details of the survey are yet to be determined and will be done largely in collaboration with the executive.

This role is heavily organizational and requires good time management and communication skills.

RESEARCH

ASSOCIATE

This position is to help the research lead with the legwork in organization and development of the student survey and its analysis.

This position is for someone looking to be a part of the executive, while holding less of an organizational responsibility.

The study involves lots of planning and this position can be a great way to try something new and develop skills!

FINANCE

The hope in this position is to seek out and apply for grants on behalf of PrideWestern.

Additionally, depending on capacity and the amount of work, ideally the individual holding this position can be of help to clubs and other campus groups looking for help finding and applying for grants.
